Troubleshooting Rubber Problems

ISBN (Buch): 978-1-56990-553-1

ISBN (E-Book): 978-1-56990-554-8

For further information and order see

Index

A

abbreviations 279
abrasion resistance 13, 29
abrasive fillers 114
absorption 32
accelerated aging 35
acetone 58
acid acceptors 235
acidic clays 23
acid rain 35
ACM 35
adhesion 21, 55, 103,
 265
 - promoters 58
AEM 22
aggregates 27
aging 12, 151
aids to troubleshooting 2
air access 18
aircraft recorder belts 194
aircraft runway seals 190
air marking 88
air springs 163
air trapping 92, 178
air viscosity 87
allergic reactions 192
alternative material 8
aluminum trihydrate 36
anatase 238
antidegradants 31
antioxidants 31, 274

antiozonants 31, 274
 - a handling problem 33
appliance wires 33
APU 166
aramid 151, 165
aromatic 55
ASTM 184
ATOM 166
attachment of heavy molds 277
autocatalytic oxidation 14
automation 7
automotive air ducts 234
axial compression 160

B

baby bottle nipples 192
backrinding 88, 98
balloons 153
bar code 68
barrel
 - length 79
 - temperature 250
bead bundles 172
bead filler 172
bead wire 170
bearings 15
bellows 184
belt 151, 176, 193
 - durability 174
 - edge separation 171

- skim 172
- slippage 195
- BIRD (Bridgestone Innovative and Rational Development) 166
- bladder 175
 - molding 174
- blended colors 209
- blind holes 124
- blisters 133, 135, 173, 260
- bloom 11, 23, 34
- blow molding 260
- blown films 271
- body cords 172
- body ply skim 171
- bond failure 149
- bonding 7
 - coatings 265
- bondline corrosion 61
- bovine foot rot 154
- brake hose 200, 206
- bridge bearings 95, 185
- brittle 15
- broad MWD 112
- bromobutyl rubber 171
- buffing 38
- bungees 155
- butt splices 191

- C**
- C3M (Continuos Cold Compounding) 166
- cable jackets 152
- CAD 111
- calcium oxide 13, 82
- calendering 2, 133
 - equipment 133
- carbide 107
- carbon black 22, 27, 28, 77, 158, 171
 - pellets 73
- carboxylated latex 45
- carrier resin 237
- cartridge heaters 100
- cartridge life 119
- casket seals 190
- castable polyurethanes 42
- casting 211
 - causes of fouling 131
 - cavity filling 102
 - cavity-filling progression 252
 - cavity finish 117
 - cavity-transfer mixer 82
 - center gating 259
 - centrifugal casting 42
 - centrifugal growth 168
 - channel geometry 83
 - channels 94
 - characterization 20
 - chemical deterioration 149
 - chemical stability 33
 - chlorinated solvents 59
 - chlorination 56, 192
 - chlorine 151
 - circuit path 247
 - clamp force 245
 - cleaning capability 86
 - clean-out batch 209
 - clean-room 45
 - clearance 156
 - closed cell 212
 - CM 21
 - coagulant dipping 216
 - coating 239
 - rolls 42
 - coatings 46
 - coaxial machine 113
 - cobalt 31
 - coefficient of friction 192, 235
 - co-extrusion 266
 - cold-feed 80
 - cold flow 2
 - cold runner 126
 - cold transfer molding 102, 105, 108
 - color 209, 237, 239, 247
 - change 34

- pigments 238
 - streaking 264
 - colored compounds 83
 - communication 149, 257
 - difficulties 110
 - composites 151
 - compound flow 105
 - compounding ingredients 58
 - compound properties 36
 - compound viscosity 29
 - compressed air 59
 - compression molding 89
 - compression ratio 245, 264
 - compression set 66, 187
 - compressive modulus 40
 - compressive stress 40
 - relaxation 187
 - conditioning hose 200
 - conductive SEBS 276
 - constrained layer damping 41
 - contamination 73
 - continuous extrusion 82
 - conveyor belts 152, 193
 - coolant channels 247
 - cooling capacity 256
 - COP 236, 249
 - copper 31
 - cork 189, 190
 - Corpo technology 150
 - corrosion 69
 - corrosive compounds 36
 - cost 8, 9, 110, 237, 273
 - factors 129
 - performance 235
 - reduction 7
 - cotton 150
 - coupling agents 173
 - cow-Related 154
 - cracked rotor 3
 - crack growth 149
 - creep 99, 187
 - crosshead extruder 81
 - crosslinking 4, 16
 - system 16, 25
 - cross section 235
 - cryogenic tumbling 121
 - crystalline melting point 237
 - crystalline regions 15
 - crystallization 14–16
 - CSM 11, 22
 - CTP 27
 - curative solubility 22
 - cure inhibition 19
 - cure times 19
 - curing presses 90
 - cut growth 14
 - CVJ boots 236, 274
- D**
- damping 36, 37, 41
 - daylight 91, 98
 - dead spots 83
 - definitions 283
 - deflashing 87
 - degree of freedom 156
 - delivery dates 259
 - demold 183
 - demolding 44, 45, 97
 - design 2, 3
 - considerations 182, 275
 - dichlorobenzoic acid 19
 - dicumyl peroxide 87
 - Die B 40
 - Die C 40
 - die cross section 78
 - die-cut 16
 - die design 83
 - die entry 78
 - die length 79
 - diesel engines 199
 - die swell 29, 77–79
 - different grades of NR are reported to impart different degrees of die 79

dimensional stability 243
 dimensions 253
 diphenylthiourea 245
 dip molding 47, 215
 dipped articles 216
 dipping 46
 – process 217
 disclaimer 6
